As we walk through the main club floor
we will create a calming reassurance
and warm hug from mother nature herself.

Embracing biophilic design, the natural shapes from the
surrounding contours of the green hills of Hong Kong,

The incredible panoramic view of Repulse bay

and its magical calming effects.

The soothing blue hues and tones
create calm in a space that is always changing,
filling and emptying through out each busy day.

dining at kindhood

Our awesome Brasserie serves homey and hearty meals all day. Wherever possible, we use free-range and steroid-free meats, eggs, fair-trade, and seasonal produce in our menus. Our meals are lovingly made from fresh ingredients and it is our policy to use less salt and sugar for certain dishes. We do not have a separate kids menu – we believe that children should be encouraged to eat the same food as adults, so we offer small and large sizes for most dishes.
